Heather - 0404 280 441

SWAN Australia is excited to introduce Evelyn Bugel, presenting her workshop on Ambiguous Loss. Evelyn Bugel is a Melbourne-based psychologist, with over 25 years experience in the community sector. Evelyn offers both psychology and counselling for carers.

In addition to Evelyn’s extensive professional experience, she also brings her personal experience of having a child with disability. Evelyn can be relied upon to understand and meet the unique needs of carers who have loved ones with disabilities and chronic conditions.

“Not all losses are the same. The finality of death is clear for most people and, typically, deaths are marked by rituals that help people process feelings of grief. When families are coming to terms with a loved one’s disability, the long-term implications of the condition or disorder are sometimes not known, nor are there events or ceremonies to help acknowledge to the community that a loss has occurred.” Source: http://www.evelynbugelpsycho.com/professional-development.html

We look forward to seeing you at the workshop, please do not hesitate to contact Heather if you have any questions.
